

595. Article 3.2.2.2 of PD 1096 actually allows a Registered Master Plumber to sign and seal plans for new sanitary installations of more than twenty (20) plumbing units. Aside from being a Registered Master Plumber what is the other requirement that you must have before you can sign and seal it?

- (a) A registered engineer
- (b) An engineering graduate
- (c) Having a minimum experience of 5 years
- (d) A member of NAMPAP

596. How should fixtures be located in order to ensure the most economical installation?

- (a) Parallel to each other
- (b) With fewer bends and curves
- (c) Along a straight line
- (d) As close together as possible
